Spring Creations

The feast of Wash Fabrics is ready, and it's a grand sight. The looms of Ireland, Scotland, France and Switzerland have sent their best products, and to the foreign fabrics we have added all the Wash Goods beauty, style and wear that our own country produces.

Skilled, experienced taste has been exercised in selecting the great stock that is here ready for your inspection. The demands of fashion have been carefully met, and there's a sight here well worthy of your attention.

Quality is the most important point, and that's what we considered first, but beauty of design and attractiveness of pattern have also been carefully attended to. Such a display of Wash Fabrics is possible only here. Make it an important point in this week's happenings to get acquainted with the Wash Goods stock—a visit here will do it. The price items will interest you—read on.
